

CS20

Saves on energy consumption.
But not on comfort.

Innovative double-L tread.

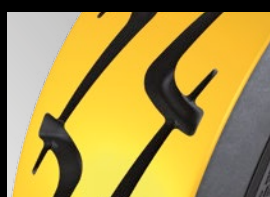

The new CS20 is fascinating because of its new tread design. The double-L tread with closed shoulder immediately offers several advantages. Annoying vibrations are minimised whilst at the same time providing good traction and excellent cornering stability.

In addition to the superior handling characteristics, the tire also provides very low rolling resistance. The CS20 raises bar for ride comfort and low operating costs to the next level.

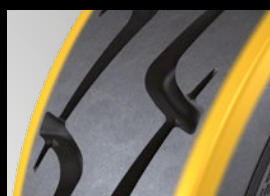

Tread design

Revolutionary double-L tread	Good traction
Continuous tread belts	Very good lateral loads
Rounded groove contour	Excellent self-cleaning

Tread

Smooth and even tread	Low rolling resistance supported by optimised compound technology
Block-free tread	Even wear

Contour

Closed shoulder	Low vibrations Maximum running smoothness
Level contour	Very quiet rolling characteristics

Pioneering eco-friendly innovations

Continental Commercial Specialty Tires (CST) continuously invests in the development of sustainable innovations for economically and ecologically efficient mobility. Besides the reduction of fuel and energy consumption, the tire manufacturer focuses on enhancing the tires' performance with regard to a long service-life and an extended lifecycle. Long-lasting tires consume less energy across the entire supply chain, including application. Furthermore, Continental CST finds it particularly important to use environmental-friendly raw materials.

The company works on pioneering renewable resources such as Taraxagum. For these successful initiatives, Continental has received the European environment prize "GreenTec Award". The tire manufacturer is also obliged to the European Chemicals Directive REACH that stipulates the Registration, Evaluation, Authorization and Restriction of Chemicals. **Continental CST will continue to work on enhancing the sustainable performance of its tires so as to make a valuable contribution to the protection of the environment and to a cleaner future.**

Dimensions.

Dimension	Wheel type
8"	
125/75 - 8/3.00	15X4 1/2-8 SIT
150/75 - 8/4.33	16X6-8 SIT
180/70 - 8/4.33	18X7-8 SIT
4.00 - 8/3.00	4.00-8 SIT
9"	
140/55 - 9/4.00	SIT
6.00 - 9/4.00	6.00-9 SIT
10"	
180/60 - 10/5.00	SIT
200/50 - 10/6.50	SIT
225/75 - 10/6.50	23X9-10 SIT
6.50 - 10/5.00	6.50-10 SIT
12"	
250/60 - 12/8.00	23X10-12 SIT
250/75 - 12/8.00	27X10-12 SIT
315/45 - 12/10.00	SIT
7.00 - 12/5.00	7.00-12 SIT
15"	
225/75 - 15/7.00	28X9-15 SIT
250/70 - 15/7.00	SIT
315/70 - 15/8.00	SIT
355/45 - 15/9.75	28X12 1/2-15 SIT
355/65 - 15/9.75	SIT
7.00 - 15/5.50	7.00-15 SIT
8.25 - 15/6.50	8.25-15 SIT

Various dimensions are also available in clean and conductive versions. Your sales representative will be glad to advise you.
