

Overview of our premium polyurethanes

	VULKOLLAN®* 93° Shore A	PEVODYN®	PEVOPUR®	VULKOLLAN®* 95° Shore A	VULKOLLAN®* hydrolysis-stabilized	VUKOSOFT®	VULKOLLAN® ELF	TRACTOTHAN®	TRACTOSOFT®	VULKOLLAN® Quartz	VULKODYN®	PEVODYN® Sof
Application	Standard wheel materials			Wheel materials for special requirements								
Normal operating conditions												
High speeds, long distances												
High load capacities/demands												
High humidity												
Loud driving noise												
Risk of explosion												
Sensitive floors												
Wet and slippery floors												
Extremely slippery floors												
Damaged floors • long lifespan of wheels • better damping												 
Cold storage • against flat spots • better traction
